

SWIFT911 Winter Nor'easter 2/12-2/14

This is a message from the Matawan Office of Emergency Management:

The National Weather Service has issued a Winter Storm Warning for our area from midnight tonight to 6:00 am Friday for heavy snow and sleet. Snow accumulations of six to eight inches are expected but could be greater depending on the track of the storm. Snowfall rates of one to two inches per hour are possible during the overnight hours tonight into tomorrow morning.

With this storm wind gusts of 25-50 mph are possible which may cause added stress to tree limbs and power lines covered with heavy snow.

In the event of a power outage, residents are asked to notify Jersey Central Power and Light at 1-888-LIGHTS-S (1-888-544-4877). Updated forecasts and community information can be found via the Borough's website (www.matawanborough.com) and on the facebook pages of the Matawan Police Department and the Borough of Matawan-Office of Emergency Management. Thank you.
